Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Objections***

1. Claim 1-12 are objected to because of the following informalities: the word "will" included in the newly added language in claim 1 is not clear whether it is a part of claim or not. Appropriate correction is required.

***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Langley (US Patent No. 1,570,751).

Langley discloses a rear view mirror for attachment at the top of edge of a motorcycle windscreen comprising: a mounting bracket (Fig. 1, 3) adapted to conform to the concave surface and edge contour of a motorcycle windscreen (20, 2), with attaching members widely spaced apart to fit to the windscreen

Art Unit: 2872

at least two locations along the top edge thereof (12), the mirror including right and left mirror portions (1, 10) are attached to the bracket about a vertical axis of symmetry, (see Fig. 3), mirror backs facing the attaching members with an included angle between the backs of 180 degrees or less that will reflect from each mirror to a centrally disposed rider a rearward view showing a portion of the rider's head (see Fig. 3), a horizontal pivotal axis (4), a pivot connection for attachment for the mirror portions to the mounting bracket (see Figs. 2 and 3), an adjustable mechanism (see the threads on 4), a spring holding the selected mirror angle (51) and the mounting bracket further comprises windscreen receiving mounting slots (see Fig. 1, where the slots in 3), wherein the slots are configured to attach the bracket to the motorcycle windscreen by clamping (see Fig. 1). Langley does not disclose the dimension of each mirror. However, it would have been obvious to one of ordinary skill in the art to get the close dimension because usually the dimension of the rear view mirrors is within the specified ranges.

The methods of enabling a motorcycle to view activity to the rear of the motorcycle are inherently met by the disclosure of the prior art.

***Response to Arguments***

4. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
